 ActZero	ActZero delivers a fully managed cybersecurity service for SMB and mid-sized companies. Our MDR service provides 24/7 monitoring, protection and response against cyber threats.		ActZeroUS@techdata.com		
 ALERT LOGIC Security. Compliance. Cloud.	Security-as-a-Service cloud provider, Monitor, Analyze, Protect. 24x7 Intrusion Detection, Vulnerability Assessment, Web Application Firewall, and Log Management Solutions.		enterprisecloudsales@techdata.com	M	
 allot	A global provider of leading, innovative network intelligence and security solutions for Service Providers and Enterprises worldwide.	5683696	Allot@techdata.com		E
 AREA 1	The only technology that comprehensively blocks phishing attacks before they damage a business.	5540622	AREA1US@techdata.com		E
 Arx Nimbus	Continuous Adaptive Risk and Trust Assessment (CARTA), governance, risk and compliance (GRC)		arxnimbus@techdata.com		
 Barracuda	Security, Storage, and Application Delivery	5540427	barracuda@techdata.com		
 BLUECAT	Delivering Industry leading DNS (Domain Name System), DHCP (Dynamic Host Configuration Protocol) and IP (Internet Protocol) Address Management DDI (DNS, DHCP and IP Address Management) solutions.		bluecat@techdata.com		
 CARBONITE	Customizable, comprehensive hot backup, ensuring critical data is protected with the power of a hybrid solution	5540414	carbonite@techdata.com	M	
 Check Point SOFTWARE TECHNOLOGIES LTD.	Single Architecture Security Products – Next Generation Threat Prevention, vSEC Cloud Security Suite, Mobile Security Suite, Data Center and SMB Next Generation Firewall and Smart Event Management Console	5545036	checkpoint@techdata.com	M	E
 CISCO	Advanced Malware Protection, Cloud Security, Email Security, Endpoint Security, Network Visibility and Segmentation, Next-Generation Firewalls, Next-Generation Intrusion Prevention Systems, Router Security, Security Management, VPN Security Clients, and Web Security	1477776	Cisco@techdata.com	M	E
 CLOUD RANGE	Hyper-realistic training for cyber security, customized to simulate actual technical infrastructure and environment	5538270	cloudrangecyberUS@techdata.com		
 ConnectWise	ConnectWise has teamed up with industry-leading security providers to offer solutions and integrations designed to reduce the risk of external attacks, with protection of user accounts and endpoints including, but not limited to: advanced multi-layered security, SIEM tools, SOCs, Antivirus/Anti-Malware, and more.	5540517	Connectwisecurityus@techdata.com	M	
 Cyberinc	Cyberinc's Isla Isolation Platform uses cutting-edge isolation technology to neutralize threats and prevent them before they have a chance to act, simplifying the security strategy and delivering immediate protection.	5540509	CyberincUS@techdata.com		
 CYBERSHARK	Enterprise-grade security and compliance as a service, at small business prices.	5540509	cybershark@techdata.com	M	
 Cynerio	Provider of medical device and Internet of Medical Things (IoMT) security solutions. Protects clinical networks from cyber threats by providing unparalleled visibility into their medical device ecosystem, proactively mapping and prioritizing potential risks, detecting anomalies and preventing breaches by proactively shrinking the attack surface.	5540425	cynerioUS@techdata.com		
 cy3con be in the know, now.	Predictive Risk Management, Vulnerability Management, Prioritized Patch Management, Threat Intelligence Services, Security Operations		cyr3con@techdata.com		
 DELL Technologies	Archiving, Backup and Recovery, Business Continuity and Availability, Collaboration, Content Management, Mobility and Migration, Resource Management, Virtualization	5545042	emc@techdata.com		E
 ERICOM BE CONNECTED. BE SECURE.	Isolation of Malware, Ransomware and other web-borne threats to prevent the infection from spreading to the network		ericom@techdata.com		
 Fluency	Security/Network Analytics as a Cloud Service: Central Log Management, Monitoring, Correlation, Threat Analytics, Orchestration, 365Plus Data Retention, Speed		fluency@techdata.com

	Firewall, Management Reporting, Network Authentication, Switches, WAN Appliances, DDos Protection, Database Security, Endpoint Protection, Wireless LAN, Advanced Threat Detection, Application Delivery Controllers, Network Testing, SDN Security Appliance, Web Application Firewall, Network-Based Video Control and Secure Email Gateway	5545031	uspmfortinet@techdata.com	M	E
	Endpoint Protection, Cloud Protection, Network Protection, Email Protection & Vulnerability Management		fsecure@techdata.com		
	End-to-end data encryption and protection; email and document security and protection; endpoint security; SME security assessments and remediation		globalintegrity@techdata.com		
	Aruba, Atalla, Voltage	1480174	hpegsupport@techdata.com		
	: IBM protects data wherever it resides while providing advanced identity and access management. Our leading solutions are designed to manage risks and detect threats with AI, and market-leading SIEM and SOAR solutions can help respond to those threats.		IBMSecuritySolutions@techdata.com	M	E
	Indeni automates best practices for network security and cloud security. Its security infrastructure platform automates health and compliance checks for leading firewalls to maximize uptime and efficiency.		Indenius@techdata.com		
	Anti-virus, Security Management, Internet Security, Endpoint Security for Business, Security Solutions for Enterprise, Mobile Security	5545037	psckaspersky@techdata.com	M	
	System Security, Internet Security, SaaS, Security Management, Network Security, Web and Email Security, Mobile Security, Intrusion Prevention, Data Protection, Vulnerability Management, and Risk and Compliance	5545034	mcafee@techdata.com	M	E
	Cloud App Security, Exchange Online Protection, Forefront Identity Manager, Intune, Exchange Online Archiving	5545006	microsoft@techdata.com		E
	One Identity delivers a suite of identity governance, access management, and privileged account management solutions that facilitate and secure your digital transformation.		Oneldus@techdata.com		
	OPAQ provides enterprise-grade security-as-a-service accessible and affordable for organizations. Our service provider partners are equipped with a simplified ability to centrally monitor networks, generate reports, manage security infrastructure, and enforce policies – all through a single interface.	5540434	OPaQUS@techdata.com		
	Oracle's security solutions enable organizations to implement and manage consistent security policies across the hybrid data center. Oracle security cloud services make leading security technologies available everywhere to organizations large and small.		oracle.quote@techdata.com		
	Privafy's comprehensive, cloud-native security-as-a-service unifies all the functionality delivered by expensive solutions to acquire and operate point solutions; SD-WAN, MPLS, VPNs, firewalls, DDoS protection, deep packet inspection, intrusion prevention and detection systems.		Privafyus@techdata.com		
	Protects organizations against advanced threats and data loss. Cloud-based security solutions to detect and block targeted attacks. Offers email protection at the gateway, which stops threats from entering your email network. Continuity, management and encryption, and archiving are additional protection benefits.	5540528	proofpointUS@techdata.com	M	
	RangeForce delivers the most effective way to level-up and accurately assess the skills of your security team through a scalable, interactive, on-demand cyber-training platform and CyberSiege blue team simulator. Our on-demand, gamified training modules develop role-based operational cybersecurity skills through real-life scenarios that deliver training down to the command line.	5540516	rangeforceUS@techdata.com	M	
	Threat, information and Malware protection, Antimalware, Email protection, FTP protection, Endpoint protection, Scan Kiosk, Gateway Security, Perimeter control, Antimalware API, Website security, Browsing protection, Content disarm and Reconstruction, File server protection, Desktop protection, AV Multi-Scan, Cyber Vault protection, Sanitization.		resecUS@techdata.com

SAVIYNT	IGA (Identity Governance & Administration) and Cloud Security. Saviynt has redefined IGA by converging traditional Identity Management with CASB and Application GRC capabilities. The Saviynt platform enables enterprises to secure applications, data and infrastructure in a single platform for cloud and enterprise.		SaviyntUS@techdata.com		E
Security Colony	Security Maturity , GRC (governance, risk and compliance), small business, cloud security strategy, security education and awareness, incident response strategy, legal and regulatory, risk assessment, security architecture, PCI DSS		securitycolony@techdata.com		
SEPIO SYSTEMS	SEPIO provides complete mitigation for malicious hardware attacks before they can cause any harm		seprio@techdata.com		
SONICWALL	Firewalls, Firewalls-as-a-Service, Cloud App Security, Secure Email, Wireless Security, Secure Mobile Access, Secure SD-WAN, Endpoint Security, Risk Meters and WAN Acceleration	5545032	SonicWall@TechData.com	M	E
STRATOZEN	Custom cybersecurity solutions for MSPs, MSSPs, and enterprises. Hosted SIEM, SIEM-as-a-Service, SIEM Management, SOC-as-a-Service, and Threat Intelligence for MSSPs and enterprises with a focus on regulatory compliance	5540508	securityservices@techdata.com	M	
Symantec	Threat Protection, Information Protection, Small Business, Website Security, Data Loss Prevention, SaaS, Data Center Security	5540101	symantec@techdata.com	M	E
TREND MICRO	Protection for Desktop, Mobile, Server, Email, Network and Gateway, Hybrid Cloud Security, Threat Intelligence Services	5545035	trendmicro@techdata.com	M	
tripwire	Cybersecurity and compliance solutions. Tripwire ensures compliance, security, and flexible risk management solutions.	5540189	tripwireUS@techdata.com		
vmware carbonBlack	Endpoint protection platform (EPP) that delivers next-generation security and IT operations services through the cloud. It applies big data analytics across all endpoints to make predictions about and provide protection from current, future and unknown attacks.	1473405	vmware@techdata.com	M	
WatchGuard	Rackmount Firebox, Tabletop Firebox, Virtual Firebox, Network Security Products, NGTW Appliances, Gateway Antivirus and Access Points	5545033	sewatchguard@techdata.com	M	E
WEBROOT Smarter Cybersecurity	Endpoint Security, Mobile Security, Web Security SaaS, Internet Security	1472415	webroot@techdata.com		
XENEX SOC-as-a-Service	XeneX redefines cybersecurity threat detection, analysis and response. Designed for channel support, XeneX cloud-based platform provides unparalleled MDR capabilities including integrated XDR & XeneX EDR. Combined with world-class delivery SOC services as well as professional services, XeneX cost-effectively addresses the SMB customers' cybersecurity short- and long-term goals and objectives.		XeneXUS@techdata.com	M	
ZERO SPAM	Anti-Spam and Email Protection		tdcloud@techdata.com		
zscaler	ZScaler accelerates digital transformation with its Zero Trust Exchange, a SASE- based platform that provides fast, secure connections between users, devices, and applications over any network. The only leader in the 2020 Gartner Magic Quadrant for Secure Web Gateways.		Zscalerus@techdata.com	M
